PROJECT EXPERIENCE

RoamReady | Senior Design Project (In Progress) *August 2026 – Present*

- Collaborating with a team to develop a responsive travel planning web app for itineraries, budgeting, packing, and destination research.
- Designing authentication, itinerary, and checklist wireframes and a visual design system in Figma.
- Using Jira to track user stories and sprint tasks as part of the team's Scrum process.
- Contributing to frontend planning and development with Next.js and Tailwind CSS.

Yellow Mango | CodePath Intro to Web Development Capstone *June 2026 – August 2026*

- Built a responsive cooking event website featuring recipe cards, cook times, event information, and an RSVP section using HTML and CSS.
- Implemented a light/dark mode toggle, RSVP form validation, participant count updates, and a confirmation modal using JavaScript and DOM manipulation.
- Completed CodePath's Intro to Web Development course with honors.

SoundProof | Human-Computer Interaction Project (In Progress) *September 2026 – Present*

- Collaborated with two teammates to propose a social music app for rating, reviewing, and discovering songs and albums.
- Designed a "rate before reveal" feature that hides friends' ratings until users submit their own.
- Defined the app's core screens and user flows for search, reviews, friend activity, and profiles; developing initial UX models to guide the design.
